Sentido®

Universal Infra Red code Emitter with built in 2A current sensor and cyclic function. The innovative current sensor Idea check if the electronic equipments is running or is turned off to prevent sending Power Toggling IR code as example. Each module Can save up to 255 IR codes then can be used for Home theater equipment, HVAC, Media systems at living rooms, Curtains control, and several other devices.
Added function: Bigger screw terminals, Broadcast button, and mini USB firmware upgrade port.
